

# Series MC filters

Ports G1/4, G3/8 and G1/2  
Modular  
Metal bowl and bayonet-type mounting

- » Removal of impurities and condensate
- » Quality of delivered air according to ISO 8573-1:2010, Classes 7.8.4 and 6.8.4
- » Manual, automatic or depressuring drain

Series MC filters are available with ports G1/4, G3/8 and G1/2. Bowls are made of metal with a transparent sight glass and have a condensate drain valve which can provide either a manual or semi-automatic function.

## GENERAL DATA

|                                                              |                                                                                                                                                              |
